

## **Enablence Announces a Non-Brokered Private Placement Financing**

**Ottawa, Canada – March 26, 2015** - Enablence Technologies Inc. (“Enablence” or the “Company”) (TSXV: ENA), a leading supplier of optical components and subsystems for access, metro and long-haul markets, today announced a financing for up to \$5.0 million at a price of \$0.05 per unit (“Unit) of a non-brokered private placement financing to close in two tranches (the “Financing”), subject to TSX Venture Exchange approval. Each Unit will be comprised of one common share and one half of one common share purchase warrant (“Warrants”).

The first tranche of the Financing will comprise a Unit with one common share and a Warrant exercisable for a period of 18 months at an exercise price of \$0.06 per Warrant. The first tranche of the Financing is expected to close in early April 2015. The second tranche of the Financing will comprise a Unit with one common share and a Warrant exercisable for a period of 18 months at an exercise price of \$0.09 per Warrant. The second tranche of the Financing is expected to close in early May 2015. Upon issuance all securities will be subject to a four month hold period pursuant to applicable securities laws.

Certain insiders of the Company may participate in the Financing. Each insider is considered a related party within the meaning of Multilateral Instrument 61-101 Protection of Minority Security Holders in Special Transactions (“MI 61-101”). Two independent directors of the Company have unanimously approved the Financing and have determined that an exemption is available from the formal valuation requirements and minority shareholder approval requirements under MI 61-101. The directors that may participate in the Financing abstained from voting on these matters. This information is being filed less than 21 days prior to the expected closing of the Related Party Transaction. The shorter period was necessary in order to permit the Company to close the first tranche of the Financing in a timely manner.

The proceeds from the Financing are expected to be used by the Company for general working capital purposes, as well as to repay bridge loans to certain insiders of the Company and other parties.

### **About Enablence Technologies Inc.**

Enablence is a publicly traded company that designs, manufactures and sells optical components and subsystems to a global customer base. It utilizes its patented technologies, including planar lightwave circuit (“PLC”) intellectual property, in the production of an array of photonic components and broadband subsystems that deliver a key portion of the infrastructure for current and next-generation telecommunication systems. The Company’s product lines address all three segments of optical networks: access - connecting homes and businesses to the network; metro - communication rings within large cities; and long-haul - linking cities and continents. ### **Forward-looking Statements**

This press release may contain forward-looking statements regarding the financing transaction, additional financing requirements, funding of ongoing operations, operations becoming profitable, are based on current expectations, future demand for products, forecasts and assumptions which involve risks and uncertainties associated with our business and the economic environment in which the business operates. All such statements are made pursuant to the 'safe harbour' provisions of, and are intended to be forward-looking statements under, applicable Canadian securities legislation. Any statements contained herein that are statements of historical facts may be deemed to be forward-looking statements. By their nature, forward-looking statements require us to make assumptions and are subject to inherent risks and uncertainties. We caution our readers of this press release not to place undue reliance on our forward looking statements as a number of factors could cause actual results or conditions to differ materially from current expectations. Please refer to the risks set forth in the Company's continuous disclosure documents that can be found on SEDAR [www.sedar.com](http://www.sedar.com). Enablence does not intend, and disclaims any obligation, except as required by law, to update or revise any forward looking statements whether as a result of new information, future events or otherwise.
